

Dougall Baillie Associates

ENVIRONMENTAL POLICY STATEMENT

Dougall Baillie Associates is committed to conducting its activities in an environmentally responsible manner and recognises the need to continually improve its operations in order to conserve and improve the environment and minimise the potential environmental impacts arising from its activities.

To achieve our aims, Dougall Baillie Associates is committed, where applicable:

- to promote sound environmental management policies and practices throughout the company;
- to ensure that activities are carried out in compliance with the requirements of relevant environmental legislation and regulations;
- to promote environmentally responsible procurement of goods and services;
- to promote environmental awareness amongst our suppliers, contractors and partners;
- to promote environmental principles and practices through our designs;
- to make efficient and environmentally responsible use of energy and water;
- to minimise waste generated from our business according to the principles of reduction, reuse or recycling waste where appropriate and to regulate the treatment and disposal of residual waste;
- to minimise any adverse environmental impact of any new development within the company;
- to raise awareness of staff of the company's environmental impact, activities and performance and to promote individual good practice.
- To document procedures and continually progress in environmental performance through regular measurement, review and audit;

Whilst Dougall Baillie Associates accepts the main responsibility for implementation of this policy; employees have a very important role in co-operating with those responsible for safeguarding the environment and are expected to assist and co-operate in the implementation of this policy.

The main responsibility for implementation of this policy lies with the Managing Director. The Policy has been endorsed by the Board of Directors who give their full support to its implementation.

Signed 

(Director Responsible for Environmental Policy)
